LOSS OF LIFE IN BIG AUTO RACE

ACCIDENT AFTER ACCIDENT FOLLOWED EACH OTHER ON VANDERBILT RACE COURSE.

HOSPITAL FULL OF VICTIMS

Many Killed Outright, Others Seriously Injured in Many Accidents That Occurred.

Motor Park, L. I., Oct. 1.—Never in the history of auto races have so many serious accidents been reported from a single race meet as are today being reported from the famous Vanderbilt race course.

The races started at six and within a few minutes reports of accidents began being reported along the course and by noon the Nassau hospital at Nassau was filled with victims brought there for medical aid.

Striking a rut in the course early this morning, the Columbia car driven by Harold Stone, 22, of Los Angeles, was completely wrecked, Stone instantly killed, and Walter Bacon, the mechanic, critically injured. Stone's 10-year-old wife collapsed when she heard the news.

Traveling at seventy-five miles an hour, Louis Chevrolet in a big Buick car, struck a touring car loaded with women. Chevrolet's mechanic, Miller, was killed instantly. Both cars were wrecked. All the others occupied miraculously with brakes.

Fordham D'Zulva, New York sales manager for the Popo-Hartford company, was killed and his wife seriously injured when their touring car crashed down an embankment en route to the races. The accident happened at Westbury, Long Island.

Harry E. Grant, driving the Alen car, No. 18, won the Vanderbilt cup. Joseph Dawson, car No. 25, a Marmon, was second; John Alken, car No. 19, a National, was third. Grant's time was 4:16:58.39; Dawson's, 4:16:25.51; Alken's, 4:17:25.72.

The Whigton, an Illinois sweepstakes, 180,000 miles was won by No. 46, a Fiat car, driven by J. F. Gahway, in 3:24:45. No. 41, a Fiat car, driven by W. H. Pearce, was second.

INQUIRY ADJOURNS FOR SEVERAL DAYS

Hearing As to Theft of Stamped Envelopes in State Capital is Continued.

(BY ASSOCIATED PRESS.)

Madison, Wis., Oct. 1.—The hearing to ascertain the facts in the state stamped-envelope theft case today was continued for several days. Some dissatisfaction has arisen because the hearing is not public. In fact, it was suggested to the court by Secretary of State Frank that an attorney should be present to represent the interests of the late Frank T. Tucker and have the right to question the witnesses. In view of the fact that the hearing is to ascertain facts in an incident relating to an "unknown party," with no one being mentioned or appearing as the defendant, the court ruled there was no occasion for the presence of an attorney as proposed. The hearing is being held in the municipal court before Judge Anthony Donovan. The facts disclosed have caused the abandonment of the theory that this was a "frame up" to hurt Tucker.

BANCROFT SEEKS A PLACE ON TICKET

Defeated Candidate for Attorney General Would Reclaim State Secretary from Using Tucker's Name.

(BY UNITED PRESS.)

Madison, Oct. 1.—Judge Levi T. Bancroft took steps here today to bring suit to restrain the state board of election canvassers from certifying the nomination of Frank T. Tucker as republican nominee for attorney general. The suit also enjoins the secretary of state from certifying Tucker's name to county clerks as that nominee. Bancroft will compel his name to be substituted for Tucker's.

ATTEMPTS TO SHOOT JUDGE ON STREET

Insane Woman Attacks Chicago Judge But Inflicts No Injury—Was Arrested.

(BY ASSOCIATED PRESS.)

Chicago, Oct. 1.—Mrs. Elizabeth Burke, thought to be demented, today attempted to assassinate Judge Baker of the appellate court of Cook county on the street. He escaped injury. The woman was arrested. The motive is unknown.

BERGER DENOUNCES DISTRICT ATTORNEY AND JUDGE GREGORY

Calls McGee and Judge As Liars and Accused of Conspiracy to Ruin Dr. Hucker.

(BY UNITED PRESS.)

Milwaukee, Oct. 1.—In today's issue of the Social Democratic Herald, the organ of Milwaukee's socialist government, Victor L. Berger, socialist congressman, and John J. McGee, socialist attorney, who recently returned from Copenhagen, where he was a delegate to the Stockholm Congress, unflinchingly attacked District Attorney McGee and Judge Gregory for their part in the recent Rucker scandal here. Both men were branded as liars and arch-conspirators to ruin Hucker's reputation and hurt the socialist government. Berger demands that they seek retribution. Libel suits may follow.

UNDETERMINED AS TO CHARACTER OF SENATOR'S ILLNESS

La Follette Examined Twice by Drs. Mayo Yesterday and Shows No Sign of Bowel Trouble.

(BY ASSOCIATED PRESS.)

Hochester, Minn., Oct. 1.—Two examinations yesterday by Drs. Mayo, having determined Senator La Follette shows no sign of bowel trouble, the senator this morning ate a test meal at St. Mary's hospital here, which by analysis in the bacteriological department will determine if the mysterious ailment which he has suffered for years are due to his stomach and digestive organs. If so there will be no operation. He is undergoing further examination today. If the trouble is found to be gallstones, he will submit to the knife. There are traces of dyspepsia.

MINOR POLITICAL EVENTS NEXT WEEK

Conventions in Massachusetts, Michigan and Tennessee, and Election in Georgia Scheduled.

(SPECIAL TO THE GAZETTE.)

Washington, D. C., Oct. 1.—With the republican state convention at Saratoga off his hands, ex-President Roosevelt will leave his home in Oyster Bay the middle of the week for a brief trip through the South and Middle West. His first stopping point will be Knoxville, Tenn., where he will speak at the Appalachian Exposition on Friday. From Knoxville he will proceed to Atlanta to speak at the great Southern Commercial Congress which will be in session in that city.

With election day but a month distant the political campaigns in the various states are expected to enter upon the final stage during the coming week. Also of interest to the politicians will be the state conventions in Massachusetts, Michigan and Tennessee. Both parties in Massachusetts will hold their nominating conventions next Friday. Gov. Draper will be renominated by the republicans, while the democratic standard-bearer will be determined. Michigan republicans will meet in Detroit to nominate candidates for all state offices, except those of governor and lieutenant-governor, which were settled by the recent primaries. In Tennessee the "regular" democrats will meet at Nashville to fill the breach occasioned by the recent withdrawal of Governor Patterson from the contest for reelection.

Georgia will hold its regular state election Wednesday, when a governor and other state officers, superior court judges and solicitors and county officers will be elected. As the tickets named in the recent democratic primaries have no opposition the election will be of a perfunctory character.

The state convention of the Independence League party in New York City on Wednesday will attract much attention, as it will probably then become evident what course William H. Taft, the founder and guiding spirit of the party, intends to pursue in regard to supporting the democratic state ticket.

The Duke and Duchess of Connaught, accompanied by a numerous suite, will leave England, Saturday, to attend the opening of the first Union Parliament in South Africa.

Included among other events and meetings of the week will be the elaborate ceremonies attending the consecration of St. Patrick's Cathedral in New York City, the annual meeting of the Farmers' National Congress in Lincoln, Neb., the inauguration of Gov. Dr. Marion Levy Burton as president of Smith college, the triennial general convention of the Protestant Episcopal church in Cincinnati, the assembling of the state constitutional convention of New Mexico, the celebration of the Jewish New Year, the International Farmling Congress in Spokane, the International Prison Congress in Washington, the annual fall carnival in St. Louis and Kansas City, and the convention of the National Guard Association of the United States in St. Louis.

MANY ARE KILLED BY EXPLOSION IN NEWSPAPER SHOP

LOS ANGELES TIMES BUILDING IS BLOWN UP THIS MORNING.

WAS BIG NON-UNION OFFICE

Managing Editor Said the Deed Was Done by Enemies of Industrial Freedom.

(BY ASSOCIATED PRESS.)

Los Angeles, Cal., Oct. 1.—Between fifteen and twenty-five men are believed to have been killed outright and a score more seriously injured in an explosion which wrecked the plant of the Los Angeles Times today while the big edition of the paper was being run off the presses.

The first explosion was followed by a second explosion and the big building was soon a mass of flames. Most of the dead were employed in the composing, stereotyping and milling rooms.

The Times is owned by Gen. Otis and is the biggest non-union paper in the country, having had serious trouble with organized labor. Harry H. Andrews, managing editor, charges the Times was destroyed by enemies of the industrial freedom.

"It will soon be re-built and will fight its enemies to the last," he said. "The horror of the loss of life precludes a further statement at this time." The loss is half a million.

The manager of the Times insists the explosion was caused by dynamite and blames the labor unions, with which paper has long been at war. Explosion broke the gas pipes and the fire followed.

The police arrested two suspects but have no positive clues as to perpetrators of outrage.

The exact number dead will not be known until the who's list of employees are checked over, but it is believed the number will exceed twenty.

Among the dead are: Harvey C. Elder, assistant city editor; Charles E. Lovelace, assistant editor; J. Wesley Brown, secretary; J. W. Chandler, Jr., L. Sawyer, telegraph operator; Harry L. Crane, assistant telegraph editor.

The city council today voted a \$25,000 fund for use in running down the dynamiters. F. J. Zeehandelaar, secretary of the Merchants and Manufacturers' association, notified the police today that a charge of dynamite had been found under his home and the police are investigating.

The bomb found at the Zeehandelaar residence was of the clock work design and consisted of fifteen sticks of dynamite attached to a fuse connected with the clock work.

Not Union Men. St. Louis, Mo., Oct. 1.—President Camp of the American Federation of Labor, expressed regret at the loss of life and destruction of property at Los Angeles, but saw no reason to think the union men had anything to do with it.

Recent Imputation. Indianapolis, Ind., Oct. 1.—President Lynch of the International Typographical Union, resented the imputation that printers had anything to do with the Los Angeles explosion. He declared the members are not law-breaking dynamiting men.

TO CONSECRATE BIG CATHEDRAL

CATHOLICS WILL TAKE PART IN NOTABLE CEREMONY

IN NEW YORK NEXT WEEK

Cardinal Vannutelli and Other Clergy Prelates Will Assist in Ceremonies at St. Patrick's.

(SPECIAL TO THE GAZETTE.)

New York, Oct. 1.—St. Patrick's Cathedral, the imposing Gothic edifice whose tall towers rising high above the surrounding structures at Fifth Avenue and Fifth Street is familiar to every visitor to New York, is to be consecrated the coming week, the ceremony as ordained by the Roman Catholic Church, being most elaborate and impressive. Cardinal Vannutelli, who was papal legate at the recent Ecumenical Congress in Montreal will be present at the ceremony, as will several other noted European prelates.

It seems curious that a religious edifice which has been in use so many years should still await its consecration, but the reason is that the cathedral has only lately been freed from the debt incurred in the building expenses, and it would thus have been impossible to have consecrated the cathedral while there was still a chance of its dedication.

The history of St. Patrick's is virtually a history of the Roman Catholic Church in the metropolis. The Most Rev. John Hughes, the first Archbishop of New York, began then building of the cathedral without a cent, declaring that he had faith in God and knew he could depend upon his people. He sent out in 1858 a circular to the wealthy Catholics of the archdiocese asking them to each contribute \$1,000. He obliged, 192 responses, two of the \$1,000 contributions being made from non-Catholics, who sent it because they wished to see in New York the finest ecclesiastical edifice in America.

With the \$103,000 Archbishop Hughes caused the cornerstone of the new St. Patrick's to be laid. Under the direction of its architect, James Henwick, the construction was carried on with the greatest care. The contract price of the structure was \$370,000, although the total amount expended upon it has been about \$25,000,000. Material was cheap and wages were low in those days, and the cost of construction does not therefore represent anything like the real value of the magnificent structure. The Lady Chapel, which was added to it a year or two ago, is the finest building of its size in the United States. It is generally considered, and it is to be beautifully added further, if the great plot of ground on which the cathedral were built now it is believed present real estate values and the cathedral were built not it is believed the total value of the property would not be far from \$20,000,000.

Archbishop Hughes died in 1864, and did not see the completion of the edifice to which he had given so much work and thought. His successor, Cardinal McCloskey, carried on the work and in 1879 the cathedral was finished. The palace of the archbishop was finished in 1890, and the rectory on the opposite corner a year later.

The consecration is to be one of the most notable Roman Catholic functions ever held in New York. The cathedral hold 15,000 people. But the officials say that more than that number will desire to attend each of the different functions of the three-day services, and they are making corresponding preparations.

The services will begin at 6 o'clock Wednesday morning. The program will start with a vespers procession of priests, bishops and choristers around the long aisles of the big cathedral. Cardinal Gibbons will officiate at the first mass. Archbishop Glennon of St. Louis will preach the consecration sermon and Archbishop Diomed Falconio, the apostolic delegate at Washington, will preside at the evening solemn pontifical vespers. Thousands of Roman Catholics whose daily occupation have prevented them from attending the 11 o'clock pontifical mass are expected to attend the evening services and listen to the sermon, which will be preached by Archbishop Healy of Rochester. Civic as well as religious ceremonies will be included in the week's program. One of the features of the celebration will be a solemn pontifical mass in the cathedral for all the Roman Catholic children of the city. This mass will take place at 10 o'clock Thursday morning. The responses of the mass will be sung by 6,000 of the children of the parochial schools of the diocese, and children will fill the pews of the big cathedral to hear the mass chanted.

On Friday, the concluding day of the celebration, there will be a solemn pontifical mass for all the religious orders of the diocese. Members of the religious orders of the diocese number more than 30,000 and this event is expected to be one of the most largely attended of the consecration. The three days' ceremonies will close with a reception to the forty visiting prelates at the Catholic Club, at which Cardinal Vannutelli will be the guest of honor.

Morality and Beauty. So many people think if they have an ill-fitting dress, eat a badly cooked dinner and have no refreshment in the clean, sweet use of the senses, they are leading a moral life. It is a profound depth of immorality to be able to live without beauty, and perhaps the most tragic thing in our social system is that while one class has a surfeit of beauty and show which they mistake for beauty, another class is deprived of beauty altogether. It is more beauty we want and less luxury.

Greatness. Some men are born great, some men become great through their own efforts and some men happen to go to summer resorts where there are no other men.

Former Edgerton Young. MAN RENOWNED AS ACTOR Charles Gove of Texas, Who Has Been Visiting Old Home, Well Known in Theatrical Circles. (Special to the Gazette.)

Edgerton, Oct. 1.—Charles W. Gove of Houston, Texas, who has been spending the week here, left this morning on his return home, stopping off in Holist and Chicago before his final departure. Mr. Gove was born and reared in Edgerton and left here eight years ago. The reason of his trip here was on account of the settlement of his mother's estate, the late Mrs. Adelle Gove, of which he was one of the heirs. Mr. Gove is a southern playwright and actor and in this profession he became famous within a very few years. Upon his return home in Texas he will join the Curtis Theatre company for a four month engagement, after which he will organize a theatrical company of his own.

Mrs. James Spike departed Friday evening for Tyndall, S. D., expecting to spend two months with a sister who resides there.

There will be no services at the Norwegian church Sunday on account of Rev. J. Lunde, the pastor, going to Burnand, Ill., to deliver a mission address.

Mrs. D. I. Wilko and daughter, the Misses Martha and Edna, left yesterday for Eau Claire on a visit to the family of Prof. and Mrs. W. A. Clarke.

Beverage on Motorists.

Switzerland has long been noted for its rather severe regulations affecting automobiles, especially with regard to the crossing of mountain passes. The most drastic regulations, however, have recently been enacted in the Canton of Unterwalden. In this section the running of automobiles on Sunday has been entirely prohibited, and even on the other days of the week they may not be run before eight o'clock in the morning or after six o'clock at night.

Automobiles in Unterwalden are also required to stop at designated points along the highways, for the payment of a toll of two francs. The speed limit has been placed at thirty kilometers, about eighteen and a half miles per hour.

The "Toothbrush Plant."

One of the most curious plants in the world is what is called the toothbrush plant of Jamaica. It is a species of cress, and has nothing striking about its appearance. By cutting pieces of it to a suitable length, and fraying the ends, the natives convert it into a toothbrush; and a tooth powder to accompany the use of the brush is also prepared by pulverizing the dried stems.

The Difficulty.

One objection some people have to getting back to nature is that nature is so poorly equipped with push buttons.—Puck.

NEW ILLINOIS CENTRAL
FRAUDS ARE BARED

Henry C. Ostermann Tells How One Car Was Destroyed to Repair Another—Both Charged Up.

Chicago, Oct. 1.—Henry C. Ostermann continued his story of the car repairs scandals which cost the Illinois Central railroad over \$1,500,000 before Judge Bruggemeyer and admitted his share of the responsibility.

He declared that the bold idea of "stripping a good car to repair a 'bad-order' one sent to his shops and then charging the railroad for the repair of two cars had come from a mistake in bookkeeping, which when it was called to his attention, he had taken a chance in getting through. It succeeded and the practice was kept up.

Ostermann also said that he had not told Frank H. Harriman, John M. Taylor and Charles L. Ewing, the defendants in the case, that he was making the improper charges. However, he left no doubt that they were aware of the frauds. At a directors' meeting he said Taylor suggested that no reports be read, as they would show too much. On another occasion 500 cars came out to the shop to be repaired on which J. T. Harahan, president of the Illinois Central, had got a price from the Burnsides shops. Ostermann saw that no overcharges were possible and Joseph E. Baker and Taylor came out to investigate.

"We have got our foot into it now," Baker told me, for the "old man," (meaning Harahan) has got a price on what the cost ought to be." Ostermann described the visit. "Go ahead and do the best you can with the cars and we'll send the material from the Illinois Central shops at Burnside."

Walter L. Fisher, who was conducting the examination, made an unsuccessful effort to show that President Harahan's suspicions were aroused about that time, but that the investigation which he wanted to start was stopped by Ira G. Davis, vice-president and one of the partners in the car repair business.

Ostermann said that he did most of the work in organizing and starting the Memphis Car Repair company, which was suggested by Baker. Later, on his return from his sensational trip to the Pacific coast, in which wild stories of lighting cigars with \$100 bills and other lavish display of money attracted the attention of President Harahan, Baker met him in New Orleans and suggested that they drop out of the company. They retired in October, 1909.

MISS HARNED SEEKS DIVORCE.

Actress Starts Action Against Southern at Reno.

Reno, Nov., Oct. 1.—For the second time Virginia Harned Southern, the actress, filed suit for divorce against

Edward L. Southern, prominent as a star. The action was filed in the district court here.

Failure to provide and desertion for a period of more than one year are given in the suit as causes for the plea for a separation. The complaint is unadorned and alleges that Southern deserted the plaintiff ten years after their marriage in Philadelphia. Since that time, plaintiff alleges, her husband has failed to contribute to her support.

SAYS DOGFISH IS GOOD FOOD.

Commissioner Pronounces "Scorched Fish" Palatable and Urges Use.

Washington, Oct. 1.—Dogfish are good to eat and just as good served as "dogfish" as they are when labeled in cases as "ocean wildfish," "sea bass," or "Japanese halibut," according to Dr. Irving Field of the Fish Commission. Dr. Field urged that in view of high food prices the public eat dogfish and not feel at all squeamish about the name.

PAROLE SYSTEM GAINS GROUND.

Humane Prison Laws Take Place of Former Harsh Regulations.

Washington, Oct. 1.—Such humane methods of punishment as the dungeon, starvation, silence, the solitary cell, darkness and corporal punishment have been largely discredited in American reformatories, according to the report of the committee on reformatory work and parole made to the American Prison association. "Almost every American reformatory is operating under some modified indeterminate sentence law," said the report. "All, we believe, have a system of parole, more or less effective, while some reformatories administer a probation law in addition."

YOUTH FOILS A BANK ROBBER.

Iowa Cashier Opens Fire When the Demand is Made for Money.

Council Bluffs, Ia., Oct. 1.—A sixteen-year-old boy thwarted a bold attempt to rob the bank of McClelland at McClelland, a small town in this (Pottawatomie) county. A man giving the name of Tom Kirby, whose home is said to be at Oakland, Ia., entered the bank and, presenting a revolver, demanded that Walter Julius, the youth who was at the cashier's window, turn over the bank's cash. Instead Julius opened fire on the bandit. Both emptied their revolvers and the robber was slightly wounded in the arm. Julius was not hurt.

Kirby then ran from the building and tried to escape. A farmer's plow had brought nearly 5,000 people to McClelland and the crowd attracted by the shooting soon captured the would-be robber.

Kirby is a man about forty-five years of age and claims to have a wife and eight children. He gives the fact that he can only earn \$1.50 a day as his reason for the attempted robbery.

WHY WILL YOU BE SICK,
When You Can Be Made Well?

RAYMOND PUDDICOMBE

J. N. PUDDICOMBE

Hundreds of people who are coming to the Chiropractors will tell you that it's the greatest science ever founded. People are coming to the Chiropractors in greater numbers each week in spite of the fact that every doctor in the county advises them against us. Doctors who tell you to stay away from the Chiropractors are trying to fatten their own purses. They know the wonderful results the Chiropractors have accomplished. They see sick people whom they have failed to cure, come to the Chiropractors and are made well and happy and robust again.

You who suffer can continue to do so, can continue to pour your hard earned money into the coffers of the doctors without relief. You can come to the Chiropractors too, if you wish. You can be made well. 98% of all who come are made well. 75% of those who come have first tried all other methods without relief. Chiropractic is a new science, a wonderful science that will outlive medicine in the same way that the automobile has outlived the horse. You can afford to come to us. Come for an interview. Let us tell you how the Chiropractic Adjustments are applied, how they work their wonderful results. How Nature itself will remove the cause of your disease. It will cost you nothing to call and talk it over, to learn whether or not you want to let us make you well.

Most every disease is overcome by Chiropractic Adjustments. Here is a clinical record of hundreds of cases. Are you afflicted with any of these diseases which have been made well by Chiropractic Adjustments?

Hernia—2 to 4 months. The subluxation may be permanently corrected in a few weeks, but further time is required to reduce the enlarged and patulous opening to its normal size, and enable the surrounding tissues to acquire their normal degree of tonicity and resistance.

Insanity—From one day to several months. The length of time depends more upon the severity and duration of the affection than upon its character.

Jaundice—1 to 2 months.

Lumbago—1 day to 2 months. Permanent relief in many cases follows one adjustment less than half minute.

Neuralgia—The same time that is required for lumbago.

Neuritis, acute—The same time that is necessary for neuralgia. In the chronic form, 2 weeks to 3 or 4 months.

Paralysis—From 1 day in acute cases to several months in those which are chronic.

Portonitis—2 to 4 days.

Pneumonia—1 to 3 days.

Prolapsus of Stomach or Uterus—From several days to as many months, depending on how much the vertebrae may be abnormal in position; and the time required to secure their normal relation.

Rheumatism—Acute cases, 1 to 4 days; others 1 to 2 months.

Scleritis—The same time that is required for rheumatism.

Smallpox—1 to 4 days.

St. Vitus Dance—From 1 week to 2 or 3 months, according to the severity of the case and the age of the patient.

The rapidity with which recovery often occurs as a result of expert Chiropractic adjustments seems to those without experience almost incredible. There are authentic records of many cases of severe, painful and obstinate form after a single adjustment.

The data given above represents the averages made up from reports of Chiropractors in various fields of work.

Asthma—1 day to 2 months.

Appendicitis—When acute, not over 1 to 4 days.

Brachitis—From 1 day in acute to 2 or 3 months in chronic cases.

Cancer—As many days as are necessary to allow the tumor to be absorbed, or, if open, to heal and form a firm cicatrix. A period of several months is usually required for this work to be accomplished.

Cataract—3 to 6 months. Removing the cause of the growth permits natural absorption to gradually occur with restoration of sight.

Catarrh of the nose and throat—From a few weeks to as many months. Often the tissues return to a normal condition in a remarkably short space of time.

Diabetes—From 1 to 3 months. No restriction of diet is necessary. Functional power is soon restored to the kidneys and then their secretions cannot long remain abnormal.

Dropsy—From 1 day to several weeks. Dropsy becomes a thing of the past when the urine is excreted in proper quantities. Adjustments restore normal activity of the kidneys; hence as soon as offending subluxation is permanently adjusted, health is re-established.

Diphtheria—1 to 3 days.

Deafness—From 1 day to 2 months.

Epilepsy—From 1 to 6 months. If adjustments are given immediately after the fit, no dull headaches will be experienced.

Eczema—From a few days to as many months.

Fever—All fevers, including Diphtheria, Typhoid, etc., 1 to 2 adjustments.

Gout—From 2 weeks to 4 months. Sometimes absorption takes place so rapidly as to be noticeable from day to day.

Gall Stones—From a few days to several weeks. Adjustments cause the stones to be disintegrated and dissolved. Hence a few days' time is frequently sufficient to accomplish a permanent cure.

Gout—A few days. Pain is often immediately relieved after one adjustment.

Hay Fever—A few days or weeks, either before or after the period of infection, sufficient.

Heart Disease—In any form, a few weeks or months.

If You Suffer In the Future You Do So Of Your
Own Choice

Why be sick when all can be made well? Why suffer at all when you can be made strong and robust? The Chiropractor removes the CAUSE OF THE DISEASE, drugs merely treat symptoms. People don't get sick from nothing. THERE IS A CAUSE. The Chiropractor locates the cause and then removes it. You get well. Nature reasserts itself. Come to our office and learn some of the old truths. Come and learn how to be made well. It costs nothing to talk with us.

MID WINTER FAIR BEING DISCUSSED

**BUSINESS MEN WOULD LIKE TO
HAVE IT REVIVED THIS YEAR.**

WOULD PROVE SUCCESSFUL

Think That Display of Made in Janesville Goods in Booths Would be Great Benefit to Local Business Houses.

With the success of the "Made in Janesville" exhibits there has been considerable talk on the streets and in business places of the possibility of reviving the former Mid Winter Fair in which the local firms and manufacturers could exhibit their products and at the same time have a chance to demonstrate their superior qualities. The Mid Winter fair held in the past are looked back upon as successful and the idea of reviving them is meeting with popular approval.

Secretary Dr. Armand of the Industrial and Commercial Club, has been approached on the subject and thinks that it might be made a success with the hearty co-operation of the citizens and merchants generally. With the organization, of which he is secretary, in charge it would not be difficult to arrange for such an exhibit that would attract hundreds of visitors from away.

It has been roughly estimated that during the past few weeks, the periods of the holding of the county and state fairs, some five hundred persons a week have visited other cities to view their exhibits. Those observant in this matter claim that this is true owing to the fact that Janesville has not such an exhibit and that if we had a county fair here each fall it would be beneficial to the city's prosperity generally.

PLATTEVILLE WON GAME FROM LOCALS

High School Eleven Defeated 15 to 0 This Morning in Contest With Normal Athletes.

In the football game this morning at Platteville, the Platteville Normal school eleven defeated the Janesville high school team by a score of fifteen to nothing. Platteville outplayed the local team twenty-five pounds per man and used the old style of playing, but the Janesville players made a creditable showing against their opponents. The Normals did not score until after the second quarter of the contest, when Stanley Metcalf, left tackle for the Hawkeye City squad, sprained his wrist. The second touch-down by Platteville, was made by catching a forward pass from Janesville, and a hundred yard run made straight down the field. The forward pass was used to advantage by the local athletes and twice they advanced the ball to within ten yards of the opposition's goal line, but were unable to score. The following players comprised the squad which went to Platteville:

B. Kelly or William Grant, re; Patter, re; Pankhurst, re; Cannon, re; Mott, re; Stanley Metcalf, re; Hazen, re; Kora, re; Brown, re; Edler, re; H. Ryan, re; Substitutes, Connell and Pufahl.

At a meeting of members of the team last evening, John Brown, right halfback, was elected captain of the eleven for this season.

BRIEF LOCAL NEWS.

Still Open: The Gof club house will be kept open during the coming week and lunches and suppers served to those who will notify the stewardess, Mrs. Pufahl, by telephone in advance.

Went Up the River: The Rotary class of the Janesville High School are spending today up the river combining an outing and picnic dinner with study of the flora. Miss Armstrong and Miss Wynne accompanied them on their trip.

Have Established A Camp: Some twenty young boys living in the third ward have established a model army camp on the property owned by the Jackson estate on Jackson street. They have tents and a guard line with real guards who patrol their tents in truly regular army style.

May Speak Here: John G. Rexford and F. H. Jackson were in Chicago yesterday to invite George A. Reynolds, one of the leading bank presidents of that city, to be present and address the meeting of Wisconsin bankers at their sessions in this city in the near future.

No Morning Services: There will be no morning service at the St. Peter's English Ev. Lutheran church. Rev. Paul Roth of the Church of Atoneement of Hollet, will preach in the evening at 7 o'clock.

At Edgerton Tourney: H. S. Lovejoy, Henry Carpenter, and Dr. F. G. Wickett went to Edgerton today to witness the tennis tournament there between the Edgerton club and a team of Whitewater players on the Culton courts. It was planned to send a team from this city to play in the tournament, but a number who were expected to go were unable to get away.

Infant Daughter: Mr. and Mrs. James Cunningham of Chicago are rejoicing over the advent of an infant daughter. Mrs. Cunningham was formerly Miss Katherine Neen of this city.

Special Meeting: A general invitation is extended to all members of Masonic lodges to meet at the club rooms of the Masonic Temple, Monday evening, Oct. 3, at 7:30, to form a social club, the object being to take up the study of the history of Masonry and Masonic symbols and other interesting subjects. Committee.

Ishama Welcome Daughter: Announcements have been received here of the arrival of an infant daughter at the home of Mr. and Mrs. Willard D. Isham, 3400 Wells street, Milwaukee. Mrs. Isham was formerly Miss Harriet McKenney of this city.

RURAL TEACHERS OF ROCK COUNTY MET HERE TODAY

Commencing at ten o'clock this morning, members of the Rock County Association of Rural Teachers held their first session of the school year today in the high school building. Between one hundred and twenty-five and one hundred and fifty teachers were present for the discussion of a special program of subjects pertaining to their work. The general meeting in the main room was presided over by David Thorne, of the town of Hollet, ex-superintendent of schools in the county, and at the sectional meetings, held until half past two, half past one, and half past one, A. C. Cook, principal of the Oxfordville graded school, was in charge of the graded school section. Miss Sadie Clapp, vice-president of the association, presided at the gathering of rural teachers. The program of the day follows:

Secretary Dr. Armand has received the plans and specifications of the new factory that proposes moving to Janesville if satisfactory arrangements can be made and he has handed them to one contractor to figure on. Later they will be given to others so that the actual cost can be estimated. The company that proposes to come to Janesville will employ a large force of workmen and will be a valuable asset to the community. Mr. Dr. Armand said this morning that the project is one that can be easily handled by Janesville capitalists and that he is confident that it will be brought here.

**CRONIN IMBROGLIO
AGAIN TO THE FORE**
Judge Lyon of Elkhorn Listened to Four Lawyers in County Court Friday Afternoon.
In county court yesterday Judge Jay F. Lyon of Elkhorn again listened to arguments on a motion by Attorney E. F. Carpenter and A. P. Richardson to have Agnes Cronin removed from the position of administratrix of the estate of the late Michael Cronin. They put forward the claim that she had not performed any of the duties she should have performed as administratrix since the last hearing. Attorneys John Cunningham and Charles Pierce, representing the widow and other interested parties are vigorously opposing the motion.

TAKE LONG JOURNEY DOWN MISSISSIPPI

Mr. and Mrs. Dave Jeffris and Daughters on Trip Down the Father of Waters on Handmade Launch.

Mr. and Mrs. Dave Jeffris and daughters, Grace and Jean, are having a most delightful journey down the Mississippi river in Mr. Jeffris' hand-made launch, the Dolphin. They are now along the Mississippi state river line and expect to travel as far as New Orleans and perhaps cross the Gulf of Mexico to Cuba before returning to Chicago. The Dolphin is seventy-seven feet over all, equipped with a powerful gasoline engine and carries a large crew. The boat was originally designed as one of the show boats for the St. Louis Exposition and was purchased by Mr. Jeffris last spring and remodeled. Its interior decorations are all in mahogany and it has ample stateroom capacity for a large party. Accompanying the party is a private tutor for the young ladies, Mr. and Mrs. Will Jeffris of this city were invited to join the party but were unable to accept. The Dolphin is large enough to make a long voyage on the gulf and has been used for several trips across Lake Michigan since Mr. Jeffris owned it. The party left Chicago three weeks ago.

BADLY INJURED BY FALL FROM SCAFFOLD

Falls From Scaffolding at Condensing Factory at New Glarus.

New Glarus, Oct. 1.—One of the laborers at the condensing factory met with an almost fatal fall while at work there yesterday. He was engaged in carpenter work on the second story scaffold, when a board on which he was standing broke, and he fell, striking his head first on a window sill on the lower floor and then against a box car which stood close to the scaffolding. He was rendered unconscious and for a time it was feared that he had been killed, but Dr. Blumer was summoned, and before the physician had arrived the man had regained consciousness and was taken to the hotel. Dr. Blumer examined the man and found no broken bones, although there may be internal injuries. His neck is somewhat weak and he is unable to hold his head up. He is resting quite comfortably today, but it will be some time before he will be able to resume his work.

Joe Becker was also injured on the same day at the plant. Mr. Becker was assisting in unloading a big boiler from a car and made a mistake, falling from the car over an embankment onto a pile of lumber. His injuries will keep him from working for a week.

Kill Shoot.
The annual "kill shoot" took place last Sunday, in which sharpshooters from nearby towns and cities participated. The following were the best scores made: S. A. Schneider, highest on King target, 217 points out of a possible 250; Robt. Kamm, highest on Union target, 71 points of a possible 75; Robt. Kamm, highest on Volney target, making 70 out of a possible 75; Dr. H. H. Hony, highest on Mann target, making 68 out of a possible 60; Dr. Hony, highest on New Glarus target, making 60 out of a possible 60.

Mr. and Mrs. Waldo Leuchner of Janesville are here visiting with relatives.

A citizen's meeting was called by the village board for last night. This meeting was called at 7 o'clock in order to obtain the opinion of the people in regard to the proposed enlargement of the Municipal Electric Light plant. Quite a few citizens assembled in which it was discussed and the majority were in favor of enlarging the plant owing to the increasing demand for current.

Mr. and Mrs. Robt. Kamm have returned to their home at Highland, Ill., after a few days' visit here with friends.

Mrs. Edward Stacey and child of St. Louis, Mo., is here visiting with her parents, Mr. and Mrs. Solomon Stacey.

Quite a few students were home over Sunday.

Prod A. Marty had the misfortune to have his hand cut with a piece of glass, it required a few stitches to have the wound dressed.

Lyman Preston of Hollet, a former New Glarus boy, was here on a visit to friends on Monday and Tuesday.

The Misses Mabel Terry and Winifred Broderick of Broadhead, were the guests of Mr. and Mrs. Albert Schlatter over Sunday.

John Thaller has purchased the brick building at present occupied by him, from Mrs. Marie Slindert.

Mr. and Mrs. T. G. Huffy were visiting with friends at Monroe and Prescott this week.

Otto Tachnly of Monroe made a short cut on Wednesday here.

Miss Helen Boyers was the guest of Mr. and Mrs. Fred Stacey for a few days.

"Something out of the ordinary is that Mrs. A. Schlatter can include strawberries in her bill of fare having a patch of strawberries bearing the second crop and all ones, too."

Mr. and Mrs. Dr. Huffy have returned home from their wedding trip to the State of New York. Dr. Huffy will take up his profession as physician in place of Dr. Blumer who will retire from actual service.

Joke on the Lion.
A British officer was shooting in Somerville. One night, as he lay on his bed, within his tent, a lion made a sudden spring through the rough fence which had been put up around the encampment.

The lion took no notice of the animal, but went straight to the sportsman's tent and seized the sleeper—fortunately by the hand only.

It must have been a terrible awakening for the officer. But somehow, as the lion changed its grip for the man's shoulder, it got hold of the pillow instead, and then decamped with its prize. Next morning the pillow was found in the jungle, at a distance of several hundred yards from the encampment.

What a disappointment it must have been to the hungry lion when he discovered his mistake!

VICTORS HAD TO STONE VANQUISHED

In Order to Stop All Argument at Conclusion of Football Game in Court House Park This Morning.

After defeating the Fourth ward team by a score of 15 to 4 in a football game played in the court house park this morning, the victors are said to have resorted to the use of stones to drive the vanquished far from the field of battle. Some little fooling had been engendered by a dispute over one of the touchdowns and the alleged efforts of one of the Fourth Warders to twist his opponents' heads in scrimmage. Remarks made by players also incensed the boys from the Third. The lineup of the Fourth Warders was, Pete McElroy, center; Tom Drew, quarterback; "Bud" Spohn, fullback; "Fouch" Schlatter and Dave McCullough, halfbacks; McCaffrey and an unknown, guards. The Third ward lineup was: Kavelage, quarterback; Allen Hermann, center; Stewart Heck, fullback; Allen Durbin and Jack Groat, halfbacks; Martin Challen and Harold Amerpohl, guards; Leo Harman and Nichols, tackles; and Clarence Scheible, end. "Clout" McGilley refereed.

Hard Finish on Grand Circuit.
Remarkable Race Won by Evelyn W. —Local Horsemen Interested.

(Special Dispatch to The Inter Ocean.)
Columbus, O., Sept. 30.—What followers of the Grand circuit pronounced the most remarkable heat and finish seen at any point this year occurred in the middle mile of today's 2:05 pace, a race that went to Evelyn W. that was second to Earl, Jr., in the pacing.

The Cleveland mare won on the outside in 2:02 3/4, with the next four lined up across the track and so close together that Evelyn W.'s victory was doubtful.

At the start of the second heat Major Brim picked up Earl, Jr., and carried him the first quarter in 30 seconds and to the half in 1:00 1/4. On the far turn Star Hatcher made a break and dropped back. All the others kept within range of the leaders, and the rush at the finish was terrific.

Earl, Jr., took the first heat in 2:03 3/4.

After the second heat had been taken away from him, Earl, Jr., remained in favor and stood a show to win in slower time until the last eighth, when Evelyn W. rushed along the rail and won by a length from Major Brim, with Earl, Jr., third.

Evelyn W. was sired by a brother of The Rex, 2:24 1/2, property of E. Hay Lloyd of Janesville. The Rex has a four-year-old trotter racing this year that trotted on a half mile track in 2:15 1/4.

Brought into Prominence.
Modern investigations as to the origins of diseases have brought the little organisms called bacteria into so much prominence that search has been made to ascertain whether they existed during the early geological periods. Not long since the fact was announced that Reagnault had discovered bacteria in coal. Continuing his researches, he found evidence that bacteria were probably coeval with the first appearance of organic life on the earth. They attacked vegetable tissues, as well as the bones and teeth of animals, but as a rule, they belonged to species distinct from those of today.

The One Exception.
"The mill will never grind again with water that is pure," remarked a mournful citizen. "That's where a joke mill has the bug on the water mill," chuckled the cheerful press humorist.—Louisville Courier-Journal.

JOHN A. DIX HEADS TICKET

EMPIRE STATE DEMOCRATS NOM-
INATE WASHINGTON COUNTY
MAN FOR GOVERNOR.

PLATFORM PLEDGES REFORM

Payne Tariff Law Declared "Breach of Faith"—State-Wide Primaries Favored—All Attacks on U. S. Supreme Court Condemned.

Rochester, N. Y., Oct. 1.—John A. Dix, of Washington county, was nominated for governor by a vote of 434 against 16 for Congressman Sulzer by the Democratic state convention. The other officers on the ticket were named by acclamation as follows: Lieutenant-Governor—Thomas P. Conway of Clinton. Secretary of State—Edward Lazarusky of Kings. Comptroller—William Schner of New York. Attorney General—Thomas Carmody of Yates. State Treasurer—John J. Kennedy of Erie. State Engineer and Surveyor—John A. Hensel of New York. Justices of the Court of Appeals—Irving C. Vann, Republican of Onondaga, and Frederick Collings, Democrat of Chemung.

The platform adopted pledges the party first to the preservation of the "old nationalism." It condemns "all attacks upon the Supreme court of the United States." It declares for sovereign state rights and "for the largest possible measure of home rule for all cities of the state."

It denounces the Republican party for its government of the state. "The declaration of principles declares that the Payne-Aldrich tariff law was a 'breach of faith' by the Republican party and responsible for the high cost of living. Only by a downward revision of the tariff, it is held, could the cost of living be reduced."

Scores Republican Party. It charges the Republican party with extravagance, especially in the creation of many needless public offices, and pledges the Democratic party to retrenchment.

"Even this gross extravagance," it says, "is overshadowed by the revelations of corruption forced from a Republican legislature. This almost made the legislature a laughing byword throughout the nation."

"The platform commits the party to a thorough investigation of all official wrongdoing, 'that the guilty may be punished and business relieved of blackmail.'"

For State-Wide Primaries. "We declare in favor of state-wide primaries to insure to the people the right to elect candidates and make nominations for public offices," the platform continues. "We favor the enactment of such measures as will compel the personal registration of voters throughout the entire state."

Popular election of United States senators, an income tax, a parcels post and the preservation of water power for all the people are other things urged by the set of principles.

John A. Dix, who heads the ticket, is the present chairman of the Democratic state committee. He is the owner of several banks and is largely interested in the paper business in New York. He is reputed to be a millionaire several times over.

MAN SLAYS LOVED ONE

Desperate Sultor, Bent on Suicide, Then Battles With Two for Possession of Weapon.

Chicago, Oct. 1.—Because she refused to marry him, William Simon, a farmer of School Hill, Wis., shot and killed Miss Emma Brandt, his sweetheart, wounded her sister in the hand, fired two shots at his cousin, Lawrence Simon, and then committed suicide by shooting himself at his cousin's home in this city.

The series of events that led up to the shooting had its beginning in Elkhart Lake, Wis., two weeks ago. At that time Simon and the girl now dead planned to marry and left home secretly. At Stevens Point, Wis., a marriage license was procured, but Miss Brandt's parents denied her permission to marry.

From that time until last Wednesday Simon dogged the footsteps of the girl. Wednesday he learned that she was to be sent to St. Louis to forget him. He anticipated the move and came to Chicago, stopping at the home of his cousin.

Miss Brandt, her sister Tillie and two other sisters, Laura and Bertha, arrived in Chicago 38 minutes after the train they had intended taking to St. Louis had left. They went to the home of Lawrence Simon to visit while waiting for a later train.

William Simon appeared to be nervous, when, after supper, the others adjourned to the parlor, leaving him with his sweetheart. The shooting began soon after.

**When You Buy Furniture See the
Largest Display of Good Furniture
in Southern Wisconsin**

On our three floors is displayed probably more modern furniture than will be found at all other Janesville stores combined. Not only is our showing larger, but our qualities excel in most every line. This store shows only good furniture. Those lines whose only talking point is mere "cheapness" in price do not find room here. When you buy furniture it's economy to buy good furniture. The little extra cost is saved twice over in the service it gives. We are exclusive agents for Globe-Wernicke Sectional Book Cases, Sealy Mattresses, K. & C. Brass Beds, and many other of the best lines in the world.

This store aims to please all patrons and as the true test is service of the goods we know that our policy of buying only GOOD furniture will please YOU best.

Attention is directed to the excellent display of Hanson Furniture, prepared especially for the "Made in Janesville" week, whose goods we handle at all times.

The Truth About Milk

What Scientists Say:

Milk is not a beverage. It is one of the most nourishing foods known to modern science. It is a natural animal food containing all the ingredients needed for nourishment and with very little waste. Its elements build up the body, keep it in repair and supply fuel for warmth and energy.

**Milk Will Reduce Your
Cost of Living**

You can reduce your table expenses and offer a pleasing variety of diet that will furnish the best form of nourishment for the whole family by substituting rich, wholesome milk for the more expensive foods. It is the most easily digested and practically the only complete natural food known. The laboring man or the brain worker can find no more nourishing food more palatable to the taste. It should be used in place of non-nourishing stimulants such as tea and coffee for it is a satisfactory drink as well as a valuable food.

Variation in Milk

Eminent scientists say that there is probably no article of food which is so liable to variation in food values as milk. This variation is due to the breed of cows from which the milk comes. Prof. Voorhees (U. S. Dept. of Agriculture) says: "Cows are classified into milk or butter breeds; that is those who give a large quantity of poorer quality milk and those which give a smaller quantity of higher quality milk." Our milk comes from "Butter Breeds." We know every herd of

cows from which our milk comes. It always averages more than 4% butter fat and cream.

You Pay Too Much

One expert states that one man may pay nearly twice as much as his neighbor for the same amount of food value in milk when both pay the same price per quart. If milk that contains 4% (cream and butter fat) is worth six cents a quart, milk containing 3 1/4% is worth only 5 1/4c; 3% milk is worth only 4 1/2c a quart. Dealers are strictly within the law when they sell 3 per cent milk. Such milk is only worth 4 1/2c a quart. If you pay more you pay too much.

There is just one safeguard against overcharge on the milk you use. There is just one way to get the richest, creamiest, purest milk and that is to use our milk now and always. IT MEANS TABLE ECONOMY NOT ONLY TO USE MORE MILK, BUT TO USE OUR MILK THAT IS THE CHEAPEST BECAUSE THE BEST, AND FURTHERMORE, WE PASTEURIZE FOR PURITY.

Please phone, write or stop our wagon as it passes your door and take a positive step towards economy and better nourishment. Order our milk for a month's trial and you will see that it is sweeter, richer and purer.

YOUNG MAN! YOUNG WOMAN!

Chartier Shorthand

Is the System You Should Learn

Because—It is the simplest to learn.

Because—It is the easiest to read.

Because—It is the fastest to write.

It consists of the alphabet and a few simple rules. It has no contractions, no exceptions, no omission of consonants, no complicated outlines and has only 65 word signs.

It is used by 400 of the leading, progressive schools of the United States. It has never been displaced from any school that has adopted it in its present form. Other schools are anxious to adopt it, but it is impossible to secure teachers in sufficient numbers.

Shorthand has hitherto been considered a difficult subject but with the introduction of Chartier that day has gone and now it is one of the easiest things to learn. We have many instances of students writing over 100 words a minute on NEW matter after 7 and 8 weeks of study. From our previous experience of teaching Pitman for several years and Gregg for 6 years, WE KNOW that no such results can be obtained under any other system.

The demand for high grade stenographers, both male and female, is away beyond the supply. No study offers a brighter future to the young man and woman as the study of shorthand.

If you cannot enroll in our DAY CLASSES join our

EVENING CLASSES, Opening Monday Evening, October 3, at 7:30

You may plan to join our day classes later, but you can just as well begin the study of some of the subjects now. Even if you cannot join our day classes you can obtain a splendid knowledge of one or more of the subjects on our course.

We have several young men and women holding good positions as bookkeepers or stenographers in this city who obtained their training entirely in our NIGHT SCHOOL.

Decide NOW to improve your opportunities of advancement by using your spare time. A

READ THIS YOUNG MAN'S EXPERIENCE:

CALVIN INVESTMENT CO. (Incorporated).

Miles City, Montana, Dec. 18, 1909.

Three years ago I graduated from your business college, having completed a course in bookkeeping, Chartier Shorthand and Typewriting. After a year's experience in an office I came to Montana, and have for the past two years had charge of the office work and correspondence of the Calvin Investment Co., one of the largest real estate firms in the state. I consider the Chartier system of shorthand by long odds the best system in use, because in the matter of speed and accuracy I find that one can easily compete with old and experienced stenographers who use Pitman and Gregg Shorthand. Several months ago I received the appointment of court stenographer in competition with several competent men, but was discharged from serving on account of my age. After three years' experience in office work and meeting many experts, I can unhesitatingly endorse your methods and system for teaching shorthand and typewriting. I would recommend any young man or woman desirous of entering this field to adopt the Chartier system of shorthand and take a course in your school.

Respectfully,
